DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in prior Office actions.

Claim 1-12 and 14-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Inaba et al US 6074724 in view of Nishimatsu US 4596747 for the reasons of record.

As to Claim 1, Nishimatsu ('747) discloses the use of a compound having a molecular weight of less than 400 (Col. 3, Lines 50-52).

As to Claim 21, Nishimatsu ('747) discloses the use of a compound having a molecular weight of less than 400 (Col. 3, Lines 50-52) which would encompass New Claim.

As to Claim 22, Nishimatsu ('747) discloses the use of a compound having a molecular weight of less than 400 (Col. 3, Lines 50-52) which would encompass New Claim.

Claim 13 is cancelled.

Response to Arguments

Applicant's arguments filed 10/06/2005 have been fully considered but they are not persuasive. Applicants' claims don't limit the radiation-cured layer to material formed exclusively by compounds with molecular weight less than 1000. Further it is not clear that the curing results in a cured layer that is materially different from that shown by Nishimatsu ('747).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
